

GLOWFLY™ UNIVERSAL HOT SURFACE IGNITER

Get the Original Size Now. Pro Size Coming Soon.

Our Glowfly family is compatible with a wide range of brands and the oldest of furnaces. Easy to maneuver in tight spaces, the Glowfly makes installation a smooth process. You'll be able to streamline replacements and stock up on one universal hot surface igniter – the Glowfly from Resideo.

Installs Made Fast and Flexible

Universal Compatibility. Simplify Your Stock.

Glowfly hot surface igniters are all about simplicity. Reduce your inventory by stocking the only hot surface igniters you'll need. For quick installation in tight chambers use the Glowfly – or, when the situation calls for a larger igniter, try the Glowfly Pro (coming soon).

TOUGHER TECHNOLOGY HELPS REDUCE REPLACEMENTS

Silicon nitride is a second-generation material – far more durable than OEM igniters – making the Glowfly less prone to breakage on challenging installs. The technology can even be used in the oldest furnaces.

EASIER FIT, FASTER JOB

Glowfly is designed specifically for service replacement jobs, enabling quicker service calls.

STRONG WARRANTY, REPUTABLE COMPANY

Both the Glowfly and Glowfly Pro are backed by a 3-year warranty from Resideo.

CUSTOM BRACKETS FOR FLEXIBILITY

Every Glowfly model includes 6 custom mounting brackets with 7 configurations, making it easy to replace 110+ igniters from nearly every furnace manufacturer. The Glowfly packaging provides visuals to match the correct bracket to the igniter being replaced.
